ABOUT SCARABEUS

Our mission is to transform lives through the power of aerial art and performance that endure in the imagination, promote a sense of belonging and nurture artistic skills.

For over 30 years we have produced pioneering indoor and outdoor performances fusing aerial skills with visual theatre and choreographed movement in site-specific, immersive and touring performances. Fearless about experimentation, we create spectacular thought-provoking and unforgettable stories, productions and participation projects dealing with contemporary narratives aimed at awakening empathy and social consciousness as a catalyst for positive change.

We believe in the power of high-quality cultural experiences and creativity to transform and enrich the lives of children, young people and families living under challenging circumstances. We're committed to making contemporary circus more accessible, creating positive experiences that give them a greater sense of belonging and confidence in making choices, encourages a sense of inquisitiveness, and helps them build self-confidence while creating meaningful bonds.

OUR PARTICIPATION WORK

The sky's the limit and we always aim big! We run an exciting portfolio of performances, site-specific commissions, participation and learning programmes.

FLYING FAMILIES

An 8-week programme of creative and physical aerial workshops for families, it's a great way for grown-ups and children to spend quality time together, strengthening bonds, communication skills and confidence while learning new skills and meeting other local families.

FLYING INTO PHYSICS

Using exciting and creative aerial technique to explore physical forces, Flying into Physics makes science approachable and accessible for a wide range of KS2 learners, including those who struggle with more traditional methods, to feel inspired and enjoy learning science and engineering.

TAKE FLIGHT

A year-long inclusive programme for young people aged 13-25, exploring aerial acrobatics, physical theatre and choreography to nurture their creative skills, support their wellbeing and build their confidence when making choices, guided by their passion for a more positive future.

AIRBORNE

A 10 week programme of creative and physical aerial workshops for KS2 children, that aims to increase children's physical literacy, building their inner trust and self-belief through improving their confidence and competence.

SHIFTING POINT

Run in collaboration with Tender, Shifting Point is a 6-week programme or week's intensive for Year 5 students. Closely linked to the PSHE curriculum it's designed to help children better express positive and negative emotions and listen and respond with empathy to each other.

PARTICIPATORY PERFORMANCES:

We regularly collaborate with partner organisations in offering alternative projects, such as our short-film student-led production of [A Child of Stories](#), site-specific indoor and outdoor commissions, and climate change call to action: [Our House is On Fire](#).

'The way that you have built relationships with the children has been a crucial factor in the success and calmness within the sessions I have been very impressed with the increasingly serious way the children approach the learning that they are doing with you. It doesn't feel like you are delivering an activity, it does feel like you are delivering life skills that the children will now own.'
